

Aventis Systems® Exhibits at the 2012 Data Center World Conference

NASHVILLE, Tennessee – October 5, 2012 – Aventis Systems, Inc. was proud to exhibit at 2012 Fall Data Center World Conference in Nashville, Tennessee, presented by AFCOM. The conference, which took place at Gaylord Opryland, afforded data center and facility management professionals the opportunity to meet with exhibitors and hear from speakers regarding the latest data center news and technologies.

Aventis Systems decided to attend this conference in order to showcase its unique data center offerings, including its On-Site Services and Warranty Programs, as well as PCI-e SSD memory. This technology in particular offers faster speeds and can help data centers meet their customer's extensive server and storage needs. In addition, Aventis Systems, attended several product information sessions in order to better understand how data center technology is evolving and how the company can stay up-to-date regarding emerging data center trends.

Data Center World is one of the country's most premiere Data Center Conferences, boasting approximately 700 attendees. Not only was this 4-day event packed with exhilarating content, but it also included an expansive exhibitor hall with over 300 booths. Attendees were able to mingle at each booth in order to learn about each exhibitor's unique data center offerings. "We brought some of our most advanced technologies to showcase how we can assist data centers operate more efficiently," stated Marc Von Mandel, Field Sales & Marketing Specialist. "We thoroughly enjoy working with data centers and hope that we can continue to provide them with the most cutting edge products and services."

About Data Center World

Data Center World is the premier international conference for data center and facilities managers. The conference is truly unique in its field as it draws upon the knowledge and experience of more than 3,500 AFCOM members to create an end-user driven program that focuses on providing real solutions for today's data center and facilities managers. This one-of-a-kind conference brings the best education, networking, and access to vendors together into one event. Data Center World provides an unrivaled opportunity to expand your knowledge by covering all aspects of the data center from management to facilities, cloud, disaster recovery, security, DCIM, outsourcing, and much more. www.datacenterworld.com/fall2012.

About Aventis Systems, Inc.

Aventis Systems, Inc., located in Atlanta, Georgia, is one of the fastest growing companies in the computer hardware industry. Aventis Systems specializes in Dell and HP lines of servers and storage equipment, as well as Cisco networking equipment. They also offer a full suite of business class workstations, desktops, laptops, and all hardware components necessary for upgrades.

Aventis Systems' mission is to build long-lasting relationships with customers by offering an extensive plan designed to cover their I.T. needs. Aventis Systems starts by leveraging experienced sales and engineering professionals to evaluate their customers' infrastructure in order to craft the most cost-effective solutions. Due to their expansive inventory, the Company delivers these solutions with the shortest build and ship times in the industry. Additionally, Aventis Systems offers on-site installation services for customers across the continental U.S. so that they can implement their projects as quickly as possible. All Aventis Systems customers are covered by comprehensive warranties which include access to dedicated, domestic technical support. Optional maintenance service plans are provided by certified technicians with on-site response times as short as two hours. Finally, to further simplify the purchasing process, Aventis Systems offers equipment trade-in and financing options.

By providing you with a comprehensive I.T. plan, Aventis Systems effectively helps you focus on your business, instead of the technology that runs it.
